# CWTC10
Wireless Touchpanel Controller

Xantech's new 10.4" WiFi touch panel is the logical addition to the all new WIC1200 Web Intelligent Controller.

Xantech's new 10.4" WiFi touch-panel is the logical addition to the all new-WIC1200 Web Intelligent Controller. Rounding out an automation or control system, the CWTC10 functions as a full 10.4" wireless control panel-- perfect for any commercial or institutional applications such as conference rooms and classrooms.. Running Windows CE in Kiosk mode, the CWTC10 provides full-blown PC power with a full-color 800x600 vibrant control panel interface. When used with (but not limited to use with) Xantech's WIC1200 Intelligent Controller, the CWTC10 is the perfect user interface for controlling A/V Teleconferencing systems with a large, but not overbearing, easy-to-use 10.4" display.

Since the touch-panel runs on Windows CE and is fully web-capable, the CWTC10 is a solid platform for using any Macromendia Flash web-enabled control page which can be served using the WIC1200 or any web server on the network. Made of durable water resistant plastic, the CWTC10 has a built in kick-stand for any table-top control application.
