

T-Coustic™ Ceiling Tiles

FEATURES:

- Improves Speech Intelligibility
- Reduces Unwanted Reflections
- Tames Room Reverberation
- Can Improve Any Space!

Many commercially available “acoustic” ceiling tiles are actually fairly reflective at low, mid and high frequencies, so they’re not very good absorbers. **Auralex® T-Coustic™ Ceiling Tiles** use a 1” absorptive core that offers 20-45% higher NRC ratings than standard tiles. Our acoustical ceiling tiles reduce unwanted reflections in the room by reducing the amount of reverberation present. The result is a noticeable improvement in speech intelligibility. Sized to fit standard 2x2 and 2x4 ceiling grids, they’re perfect for sound-critical spaces such as offices, conference rooms, medical facilities or basement environments.

T-Coustic Ceiling Tiles 2’x2’

Overall NRC	0.90
Fire Rating	Class A
QTY	Minimum (12) 23.875” x 23.875” x 1” panels
Coverage	48 ft ²
Color	Black FR701 Fabric or Smooth Matte White Scrim

T-Coustic Ceiling Tiles 2’x4’

Overall NRC	0.90
Fire Rating	Class A
QTY	Minimum (6) 23.875” x 47.875” x 1” panels
Coverage	48 ft ²
Color	Black FR701 Fabric or Smooth Matte White Scrim
